## Organisation

Genossenschaft Studentenheim Basel was founded in 1962 in order to build a student residence. The first - male - students moved in 1965, since 1982 we also accommodate female students.

The members of the Board work on a voluntary basis. Among them the residents of Studentenheim elect a representative to the Board; this election is part of the annual assembly in autumn.

With its excellent infrastructure, its many possibilities to pass the time and with the rewarding mixture of students from all over the world Studentenheim Basel aims to offer a home base during your stay in Basel. In order to make this community living work we expect of all our tenants consideration, that they respect the other tenants and our rules and that they are willing to deal with small everyday duties.
