

Global Internship Programme in Innovation & Sustainability #IP2TIS

Our recruitment period has started, apply now!

Aligned with our sustainability mindset and inspired by the Sustainable Development Goals (SDG), we have launched the Global Internship Programme in Innovation & Sustainability (#IP2TIS). With this dynamic programme, we want to provide you, as an early in career talent, the opportunity to explore cutting-edge projects and ideas in a safe and supportive environment. Together with some of the most innovative thinkers in the industry and other #IP2TIS interns, you will contribute to solving real challenges around Science, Technology, Society and Sustainability that have the potential to shape the future.

What we offer:

- ◆ Being a part of our programme, you will not only gain industry experience by working on futuristic projects, but also become a member of a global community that engages in impactful activities such as leader talks and get exposure among our senior leaders during the presentation of your project results at the Internship Summit.

Who we are looking for:

- ◆ Passionate, motivated and forward-thinking Bachelor, Master and MBA students, either enrolled at a university/business school or those in a gap year before starting a PhD.

Duration of the programme:

- ◆ 3 Months. During these months we offer a unique curriculum and firsthand insights into our fascinating world of science and technology.

Start Date:

- ◆ End of June, start of July 2023

End Date:

- ◆ End of September, mid October
