## Job description

Apply

Share this job:    

We are currently expanding our forensic practice and are seeking talented, highly motivated, and innovative practitioners with strong managerial experience in the area of investigations, regulatory enquiries, and disputes.

Our team is looking for people who share our passion for building a career within eDiscovery and technology-driven investigations, and who look forward to contributing to our core expertise: knowledge discovery from unstructured and structured data.

### How you can make an impact

- Collect, preserve and analyse electronic data in order to find the facts that help our investigators and legal counsel establish the extent of the misappropriation or misconduct: what happened, where, when, who did it, how did they do it etc.
- Assist with the collection of potential evidence from a suspect's computer, processing and analysing large amount of emails and other data sources, analysing mobile phone logs, and recovering deleted text messages
- Help our investigators to crack the case by searching for critical documents
- Build a strong global professional network, and enjoy working on a variety of exciting analytics projects
- Delve into all aspects of our technical disciplines, enjoy our large variety of specialist further training options, and join forces with like-minded "kindred spirits", experienced forensic technology professionals who will boost your network of valuable career contacts

### Who we are looking for

- You are a curious, analytical thinker and capable communicator with a highly technical mindset, a keen eye for details, and the strong desire to take charge of (and responsibility for) complex challenges, proving yourself by delivering high-quality results right on (or better yet, ahead of) schedule, unfazed by occasional project pressure or stressors such as tight timeframes, demanding deadlines etc.
- Graduate of (or student completing your Master's degree in) computer science, natural science, engineering, or related field

## Your team

Our diverse, multinational and highly motivated team of 40+ people is excited to welcome you. Experience our friendly, collaborative and international environment with plenty of room for you to connect to other people, thrive, and just be yourself. We will help you grow both personally and professionally: through our trainings, mentoring programmes and on-the-job learning, but also by connecting with your colleagues across all business lines.

## Careers at Deloitte. Choose your impact.

At Deloitte, your ideas create impact and spark meaningful change for our clients, people and society. Your unique expertise, background and perspective helps us find new ways into the most complex challenges so we can brighten the futures of those our work affects. At Deloitte, you can build a career that inspires and energises you. At Deloitte, you can choose your impact.

In Switzerland, we provide industry-specific services in the areas of Audit & Assurance, Consulting, Financial Advisory, Risk Advisory and Tax & Legal. With more than 2,000 employees at six locations, we serve companies and organisations of all sizes in all industry sectors. We offer meaningful and challenging work, a place where you can be you and where you will never stop growing. You will benefit from flexible working conditions as well as wellbeing and parental programmes.

Join us and become part of a global network of like-minded people dedicated to making a difference, whether by **addressing climate change** or improving 100 million futures by 2030. Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (“DTTL”), a UK private company limited by guarantee, and its member firms, each of which is a legally separate and independent entity. Please see [www.deloitte.com/ch/about](http://www.deloitte.com/ch/about) for a detailed description of the legal structure of DTTL and its member firms.

Deloitte AG is a subsidiary of Deloitte LLP, the United Kingdom member firm of DTTL.

Deloitte AG is an audit firm recognised and supervised by the Federal Audit Oversight Authority (FAOA) and the Swiss Financial Market Supervisory Authority (FINMA).
