1. Funding plan

The following rules apply to the different employment conditions of the doctorate, more details can be found in §23 of the OWP:

<p>Doctorate with a structural position (Research associate with a Master¹)</p>	<p>The position of a research associate with a Master's degree or equivalent with the aim of obtaining a doctorate is limited to one year with the possibility of a three-year extension.</p>
<p>Doktorate with a non-structural position (Project assistant¹)</p>	<p>The position of a project assistant is limited in time according to the respective duration of the third-party funded project and can only be extended within this framework; details are described below (third-party funding).</p>
<p>Doctorate without an employment contract at the University of Basel</p>	<p>The doctoral candidate is not employed at the University of Basel and therefore responsible to secure his/her own funding of the doctorate.</p>

The maximum term of employment is four years. If it is absolutely necessary for scientific training, and in particular if family responsibilities are involved, the appointment may be extended by a maximum of one further year in justified cases. If the extension of the contract is viewed critically by the first supervisor and/or the person responsible for the position, an interview in the extended circle (usually the whole doctoral committee; see process) and in addition, written information (e-mail and filing in the e-dossier) at least two months before the end of the contract, are mandatory; three months are recommended. Non-extension of a structural position must be justified in writing by the doctoral committee and submitted to the faculty's Doctoral Board. The doctoral study regulations apply. In any case, according to the employment contract, the employment of the doctoral candidate ends automatically at the latest six months after completion of the doctorate – except in the event of illness and/or parental leave.

In addition to the doctoral agreement, the doctoral candidate will receive an information sheet about all the advisory services available at the University of Basel. The document also includes information on maternity/paternity regulations, compulsory Swiss military, civil defense and fire services, and any deputy regulations that may result from these.

The doctoral candidate hereby confirms that he/she has received the information sheet:
